

THE INTERNATIONAL REC STANDARD

Empowering Electricity Purchasers

MINUTES

To: Public Minutes
From: I-REC Standard secretariat
Date: April 23, 2018 :: 09:00 – 10:30
Location: No 2 Beixiaojie Street, Liupukang, Dewai, Xicheng District, Beijing 100120, China
Subject: Meeting Minutes with National Renewable Energy Engineering Information Management Center (NRIC) and The International REC Standard (I-REC Standard)

Attendees:

- Yanheng Guo, Deputy Director, NRIC
- Ye Wang, NRIC
- Jared Braslawsky, Secretary General I-REC Standard
- Jules Chuang, Board member, I-REC Standard
- Dongqi Yang, Rose Liao, Mt.Stonegate Green Asset Management Ltd.

Introduction and visiting purpose:

- To understand the policies and future of renewable energy policy and China and the impacts this has on corporate procurement.
- Determine the best way forward for the Chinese Green Certificate System and the I-REC Standard system in China.
- Determine if the I-REC Standard is necessary in the future and if so who will be the responsible party to deal with its implementation in China.
- Discuss other associated rules such as recent RPS regulation and other aspects.

Meeting notes:

- I-REC Standard's developments in China were seen as beneficial in increasing the understanding and investment in local RE in China.
- The NRIC expressed a willingness to become local issuer in China and suggest that an MOU be signed between the I-REC Standard and NRIC. In this way the NRIC can be the responsible entity over the development of the I-REC Standard in China.
- NRIC stressed that the development of I-REC Standard should not conflict with Chinese government policies or direction. As such NRIC would need to continue to obey instructions from the National Energy Agency (NEA).
- NRIC stressed that they hope that the I-REC Standard can support in providing methods to invest in local renewable production in China.
- The I-REC Standard proposed to discuss NRIC's idea with the NEA at their meeting the next day (April 24).
- There was the proposal to organize a workshop for market players and international stakeholders when the MOU has been signed.
